Application Date (YYYY/MM/DD)  
Applicant Name (Signature or Seal)

This certification(application) was drafted in accordance with relevant facts.

Date (YYYY/MM/DD)

Project Owner(Contractor)

- Company Name
- Corporate Registration No. or Date of Birth
- Name of Representative (Signature or Seal)
- Address
- Tel.

### Notice

1. Fill in the “Main Field of Business”, when the constructor was contracted to perform construction works in its registered main field of business.
2. “Category of Construction Works” refers to either “New Construction Works” or “Maintenance and Repair Works.”
  - New Construction Works include a) extension, alteration, reconstruction, and substantial repair of buildings, b) expansion and extension of facilities other than buildings, and c) restoration, reinforcement, and alteration of main structures after their dismantlement.
  - “Maintenance and Repair Works” refer to improvement, repair and reinforcement works after the completion of a facility.
3. ① Type of Works: [For all types of Construction Works(General · Specialized)] Write down the type of general construction works(Civil Engineering, Building, Industrial and Environmental Facilities, Landscaping) provided based on the “Table 3 of 「Enforcement Regulation of the Framework Act on the Construction Industry」.”
4. ② Area of Construction: [For all types of Construction Works(General · Specialized)] Write down the Area of Construction from the “Table of General Construction Works” below.
5. ③ Description of General Construction Works: [For all types of Construction Works(General · Specialized)] Write down the description of general construction works from the “List of General Construction Works” below.
6. ④ Description of Specialized Construction Works: Write down the description of specialized construction works from the “List of Specialized Construction Works” below.

- Table of General Construction Works

| Works                                   | Area of Construction                  | List of General Construction Works                                                                                                                                                                                                     |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                |
